

Peking University Bioaerosol Laboratory Bulletin (PKU-BLB)

Volume 11, Issue 2

**August
2023**

**Dr. Yao, as the chair, has successfully held the
11th National Indoor Environment and Health
Conference!**

**Dr. Yao chaired
the 11th National
Indoor
Environment
and Health
Conference!**

**Dr. Yao's lab has developed
rapid breath-based screening
system for COVID-19**

**北京大学生物气溶
胶实验室**

Beijing, China

Scientific Publications

1. The system using the ATP based method for real-time monitoring bioaerosol was issued a national invention patent.

2. Dr. Yao along with other colleagues organized a bioaerosol session during the 4th National Environment and Health conference held in Fuzhou.

3. Dr. Yao participated in the modeling and prediction of epidemic symposium held in Macau.

Other Selected Scientific Activities

1. Dr. Yao chaired the 11th National Indoor Environment and Health Conference in Huhehot.

4. Dr. Yao Dr. Yao was invited to give a talk at the 9th NGDx 2023 Conference held in Shanghai.

Our next issue is expected to be in December and look forward to exciting news from our group. For other information, please visit our laboratory web site: www.yaopkulab.com. All contents contained in this document are copyrighted and explained by PKU Bioaerosol Laboratory.

Students News

1. Former PhD student Haoxuan Chen was selected as the recipient of the prestigious Sheldon K. Friedlander Outstanding Dissertation award from the American Association for Aerosol Research.
